Tejas Kumar

CSE Graduate from Indian Institute of Technology Delhi

TejasKumar3005 | tejaskumar.iitdelhi@gmail.com | +91 7357320144 | ResearchGate

Education

2025 B.Tech in Computer Science, **Indian Institute of Technology Delhi** (GPA: 9.05/10)
2021 Class 12th, Central Board of Secondary Education (98/100)
2019 Class 10th, Central Board of Secondary Education (97.2/100)

Awards and Achievements

- **All India Rank 88** in **JEE Advanced 2021** among 1 million students.
- **KVPY AIR 12** (2021) and **AIR 36** (2020) among 500,000 students.
- Winner of the **Batch of 1969 Innovation Scholarship for Entrepreneurship** at **IIT Delhi**.
- **Best Paper Award, World Water Summit 2020** for an algorithm optimising groundwater recharge cost.
- **Top 10** innovative ideas in **Samsung Solve for Tomorrow 2022** among **18,000** teams.
- **1st Prize, Innov8 Hackathon** by Eightfold AI for AI-based fraudulent resume detection.
- **International Rank 1, Physics Brawl** (Institute of Theoretical Physics, MFF UK); **Gold**, Online Physics Olympiad by Jane Street.
- **Gold medallist, International Earth Science Olympiad**, Daegu, South Korea; selected for the **Indian team at IOAA 2020**.
- **NTSE Scholar 2019**; **top 35** in India for **IJSO 2018** (OCSC); **NMTC AIR 18**.
- **Black belt in Karate** with a **National Gold medal** and several State and District medals.

Work Experience

Founder, AgentNet July 2026 – Present

Built a platform **enabling businesses to sell directly to AI agents**. Grew to **1,000+ users** and **50,000+ searches within the first month**, with **$40k in ad credits committed** on the platform by companies.

AI Researcher, Supermemory February 2026 – June 2026

Designed a **new search and retrieval architecture** with $O(n \log n)$ **attention pairs** and $O(\log n)$ **search complexity**, giving **LLM-like reasoning retrieval with RAG-like scalability**. Created augmented datasets for memory use cases and used them to **RL fine-tune Qwen3.5 8B**, **beating Claude Sonnet 4.6 in memory extraction by 9%**.

Founder & CEO, Svar March 2024 – December 2025

Built a **Voice AI-powered system** delivering **speech therapy to children with speech impairments**. **Benefited 2,000+ children** and led the company to **acquisition**.

ML Research Intern, FloWorks (YC W23) November 2022 – June 2023

Built **semantic routing** to fetch **CRM tool calls from English commands**. **Fine-tuned Llama and MPT-5B** for the specific use case.

ML Research Intern, Invention Labs / Avaz Inc. July 2022 – August 2022

Built a **new NLP algorithm** that **improved next-word prediction accuracy by 8%**. Built an **accessible keyboard interface** in **Flutter** for the AAC app.

Publications

Assessing the Carbon Footprint of an Ayurveda Medical Institute Link to paper

Case study of the National Institute of Ayurveda, Jaipur, published in *Recent Advances in Industrial Production*, Lecture Notes in Mechanical Engineering, **Springer, Singapore**; presented at the **International Conference on Evolution in Manufacturing 2020**. Proposed solutions to **cut emissions by 430 tonnes of CO_2 per annum**.

Retrograde Motion: The Derivation of Formula Link to paper

A new derivation of a formula explaining the retrograde motion of planets in **Astronomy**, under the guidance of **Dr. B. S. Shylaja, Director, Jawaharlal Nehru Planetarium, Bangalore**.

Novel Mathematical Algorithm for Optimising Cost of Aquifer Rejuvenation Link to paper

Built a multi-input algorithm that **reduces the overall cost** of a community-level rainwater harvesting system **by almost 40%**. Won the **Best Paper Award at World Water Summit 2020**.

New Set of Derivations for the General Axis Theorem of Moment of Inertia Link to paper

A general axis theorem in **Physics** giving the moment of inertia about any axis from any 3 non-planar moments of inertia.
